

It is designed to be much more affordable, and with a modular approach, starts with a basic canopy which luxuries can be added as needed.

The AHA-15 starts with a bakkie specific design, with an aluminium canopy, which forms the basis of the entire system.

When you are not completely sure which product will suit your exact camping needs and whether you are a camper to begin with, we will gladly assist you with a quick checklist of needs and requirements.

We all have made the mistake of buying compulsively and then turning out not to be happy with the product of choice.

If you are a connoisseur in camping and touring all over Africa, or just dreaming of an overland tour, or just local camping territory in South Africa, or simply a canopy for your "bakkie", .....THIS AHA-15 Camper is for you. If your budget is tight....., THEN the AHA-15 is for you.

The AHA-15 is a lightweight aluminium canopy tailor made to your specific vehicle type and load bay length.

It is ONE of a KIND canopy on the market today and so versatile that it starts of as a normal aluminium canopy; but with no fuss can become an absolute **5 Star Luxury Camper**.

Something else that makes our AHA-15 canopy so unique is that the roof has 2 doors, these swing open to the sides and you are now able to load large type goods – ie, Fridges & beds without even having to remove your canopy form the vehicle.....No mess no fuss with bolts and nuts and screws.....

By removing the two top/roof swing doors from the canopy you can add a Room Top with awning and sleep in luxury on a double bed. Play with your own set up in the load bay of the canopy or we can fit a complete camper for you, with all your heart desire on 5 Star camping essentials. From an inside/outside kitchen to an en-suite bathroom, fridge and stove.....these are just some of the options available.

During our years of manufacturing and supplying campers across our borders; we have established a name.....
